PUZZLE PROJECT

Over the boundary
of
nations, religions and races with art,
it will be connected!

This is an art project. Various artists make each piece of a jigsaw puzzle, in imagination of various relations and non-relation, order and disorder and which is 30cm-square per piece as a work and assemble. Therefore, nobody

this project had worked on each
piece of jigsaw puzzle, it

will be puzzled out at
the exhibition of this

connected forever, it is

nobody can see the
whole image before

finishing assembling
is always in process, and there
and puzzling out it. This

isn't completed figure. You can see

finished work, and it'd be able to keep on this project endlessly.
So that means an everlasting puzzle, an expanding puzzle. Various

what will really appear at this exhibition.

However, it is also only process ...
without relation to the intention of each one. Namely this

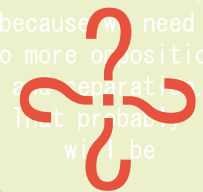

project will portray order and non-relation,
order and disorder of existence. The concept of this project is

[FUSION]. Now when u:ni:pon2kau2 art project space
